Comments from the Committee to put goals and strategies at the end of the sections.

Motion to take out repetition of goals and strategies and to put all of them at the end with references in the narrative to page number of the chart that is that was reviewed by the public. Seconded and accepted 6-0.

Brief discussion of the color used in the headings - need bolder use of color to highlight and organize - make it "jump out" at the reader.

Use State and Town goals to begin each chapter

How can we bring the readers in - Fred will ask Rick for design options that the Committee can see and vote on.

Discussion continued:
